REMINGTON, JOHNSON & CO.

Notice to Lien-Holders.

In the District Court of the State of
Nevada, Eureka County.

D. NATHAN, Plaintiff,

vs.

WILLIAM FERGUSON, Defendant.

NOTICE IS HEREBY GIVEN THAT THE
above entitled suit is brought to foreclose
a material man's lien for \$210.87 against and
upon that certain mine and mining claim
known and described as the Margaretta mine,
situate on Adams Hill in Eureka Mining Dis-
trict, Eureka county, State of Nevada, com-
mencing at the north line of the Lone Pine
and Macon City mines, and running in a north-
easterly direction fifteen hundred feet from its
notice of location, and one hundred feet on
each side joining the eastern line of the Good
Hope mine on Wide West Hill, located by Ed-
win L. McEllan and William Ferguson.And all persons holding or claiming liens
under the provisions of an Act of the Legisla-
ture of the State of Nevada, entitled "An Act
to secure Liens to Mechanics and others and to
repeal all other Acts in relation thereto," ap-
proved March 2, 1875, against or upon said
Margaretta mine, to be and appear before said
Court, at the courtroom thereof, in the town and
county of Eureka, State of Nevada, on the 13th
day of August, A. D. 1887, at 10 o'clock A. M.,
or as soon thereafter as counsel can be heard, and
then and there exhibit proof of their said liens;
and liens not so then and there exhibited and
proven shall be deemed to be waived in favor
of those so exhibited and proven.

R. M. BEATTY, his Attorney.

Eureka, Nev., May 17, A. D. 1887. m20-3w

NOTICE.

UNITED STATES LAND OFFICE.

EUREKA, NEVADA, May 4, 1887.

NOTICE IS HEREBY GIVEN THAT
John E. Jones, authorized agent of the
State of Nevada, and acting for and on its be-
half, has filed an application to enter under the
provisions of an Act of Congress, approved
June 16, 1880, entitled an Act to grant to the
State of Nevada lands in lieu of the sixteenth
and thirty-sixth sections in said State, the N. 4
of NW. 1 of section 15, township 16 N., of
range 57 E., of Mount Diablo meridian, in the
district of lands subject to sale at Eureka, Ne-
vada, and containing 80 acres.The selection of the above described tract
of land will be tendered at said Land Office
on Monday, the 20th day of June, 1887.

INFORMATION

OWNERS AND LOCATORS

MINES.

APPLICATION FOR PATENT.

Where papers have once been filed with the
Register and Receiver they become a part of
the record, and can neither be withdrawn nor
returned, but must be transmitted to the Gen-
eral Land Office.An application will be rejected when the
description of the premises is erroneous or
insufficient.Application for patent will be rejected be-
cause:First—The notice was published without the
knowledge of the Register.Second—The notice was not published in a
newspaper designated as published nearest the
claim.Third—Record title was found defective,
andFourth—A previous application had been
made for the same premises, which was with-
drawn pending a suit in Court commenced by
the adverse claimant.An application for patent will be rejected
when the survey does not accurately define the
boundaries of the claim.Where the claim was not located in accord-
ance with law.Where several parties own separate and dis-
tinct portions of a claim, application for
patent may be made by either for that portion
of the claim owned by him; but where several
parties own undivided interests in a claim,
claim all should join in an application for a
patent.A person or association may purchase a
mineral location as the local law admin-
ister, and embrace them all in one application for a
patent.Two or more lodes cannot be embraced in
one application for a patent except for place
claims embracing two or more lodes within
their boundaries.Papers sworn to before any person purport-
ing to act as a deputy for the Register and Re-
ceiver cannot be recorded as evidence.In all patents for mining claims situated
within the interior boundaries of a town site
a clause is inserted "excepting and excluding
all town property, rights upon the surface,
and all houses, buildings, structures, lots,
blocks, streets, alleys or other municipal im-
provements not belonging to the grantee here-
in, and all rights necessary or proper to the
occupation, possession and enjoyment of the
same."Publication of notice must be made in only
one newspaper for the period of 60 days.Notice must be published 10 consecutive
weeks in weekly newspapers, and in daily
newspapers 60 days must elapse between the
first and last insertions.Where the Register designates the daily issue
of a newspaper for publication of notices of a
mining application for patent it is not a com-
pliance with law to change to the weekly edi-
tion of the same paper without authority of the
Register.The existence of a salt spring on a tract of
land withdrawn from the operation of the
homestead and pre-emption laws, A hearing
for the purpose of proving the agricultural
character of such land is not allowed. Land
containing valuable deposits of slate may be
entered under the mining Act.

AGRICULTURAL OR MINERAL LANDS.

Where land is of little, if any value, for agri-
cultural purposes, but is essential to the
proper development of mining claims, it
should be disposed of under the Mining Act.Where lands containing valuable mineral
deposits have been included in an agricultural
entry, said entry will be canceled as any time
prior to issuance of patent, upon satisfactory
evidence of the existence of such valuable de-
posits.Where valuable deposits of mineral are dis-
covered upon a tract after the same has been
entered as agricultural, but before a patent has
been issued, the parties claiming the mine
may make application for patent for same,
and the agricultural entry will be canceled; if
that portion of the land embraced by said
mining claim is not included in the agricultural
entry, the agricultural claimant, they pass
with the patent.Agricultural College scrip cannot be
cited in payment for claims.

ALIENS.

A foreigner may make a mining location
disposable of it, provided he becomes a citizen
before disposing of the mine. Proof that the
party was not a citizen before disposing of his
claim must be affirmatively shown.Locators and intermediate locators, other
than applicants, will not be presumed aliens,
in the absence of allegation or objection prior
to issuance of patent.The portion of a mining claim sold to an
alien cannot be patented while such owner is
an alien; but on his declaration as a citizen
his right dates back to his previous loca-
tion, and he may thereupon secure United States
patent for his claim.

CROSS LODES.

Revised Statutes, Section 2336:

Where two or more lodes cross or intersect
each other, priority of title shall govern, and
such prior location shall be entitled to all ore
or mineral contained within the space of either
section, but the subsequent location shall have
the right of way through the space of inter-
section for the purpose of the convenient
working of the mine. And where two or more
veins unite the oldest or prior location shall
take the vein below the point of union, in-
cluding all the space of intersection.

TUNNELS.

There is no authority of law for a tunnel
location 3,000 by 1,500 feet. A proper loca-
tion is the width of the tunnel for 3,000 feet.There is no provision of law for patenting
tunnel locations, but lodes discovered in run-
ning a tunnel may be patented in like manner
as other lodes.The right is granted to tunnel owners to
1,500 feet of each blind lode, not previously
known to exist, which may be discovered in
their tunnel.When a lode is struck or discovered for the
first time in the option of recording the tunnel
claim of 1,500 feet all on one side of the point
of discovery or intersection, or partly on one
side thereof and partly on the other.Prospecting for blind lodes is prohibited
the line of a located tunnel while the tunnel
is in progress, but other parties are in no way
debarred from prospecting for blind lodes
running transverse along as they keep within
the line of such tunnel.THE
